*Note: About The Apology for the July Issue:*

Because of some problems among the comrades in the editorial department, the July edition was not completed on time, and hence had to be published together with the August issue. Furthermore, comrades were not notified about this by mail or other methods. This caused a few comrades to worry. We are deeply sorry.

In addition, the June addition had a few problems. For example, in the article on "The Destruction of Socialist China" it stated: "When was the end of the Soviet Union? Was it that bitter cold winter of 1991? No, from Khrushchev's 1968 suppression of the workers' movement onwards, the Soviet Union was already finished." The year 1968 was a mistake. What this referred to was the 1962 Novochoerkassk Workers Movement. In addition, Comrade Li Huai is not missing. This afternoon today there was already a record of his release. At present all is normal, and work and life are continuing normally. The previous news possibly resulted in misunderstandings among comrades. We are deeply sorry. This was the result of negligence by comrades in the editorial department. In the future we will do our utmost to avoid such occurrences.
